

Brightspace Virtual Classroom

Virtual Classroom is a program that has been integrated in Brightspace which can be used to teach classes online. During the Virtual Classroom you can share PowerPoint slides, Word and PDF documents and use a webcam. It is also possible to make use of different functionalities, such as creating polls or writing/drawing notes during the class. In addition, students are able to ask questions during the session via the chat box or the microphone.

For best functionality, be sure to use Chrome or Firefox. Most browsers will update automatically (or have an option to do so). If you run into issues using Bongo, try (re)installing your browser - as you may have too many add-ons or restrictions.

- Choose **Communications** in the top teal navigation bar of your course.
- Click **Virtual Classroom**

Schedule a meeting

- Click the pink button in the lower-right corner of your screen.

Schedule Meeting [Close]

☒ Publish recorded meeting

☐ Allow external participants

☒ Invite entire class

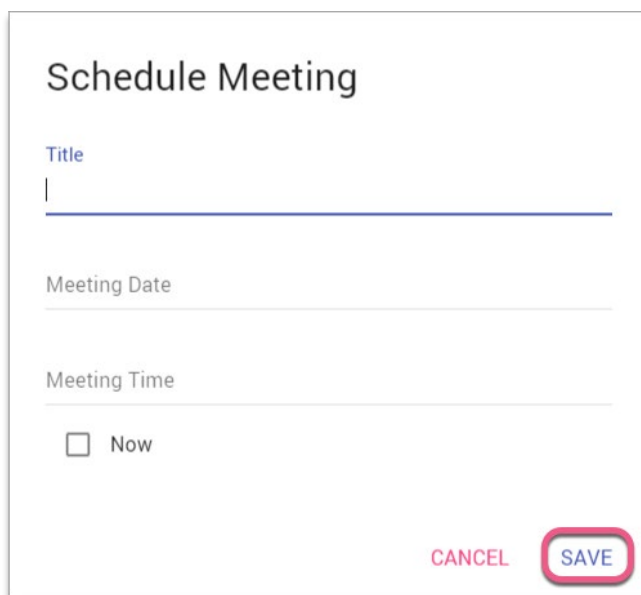

Please note that maximum possible amount of users in this meeting is 100

SAVE

- Fill in a title for your meeting at **Title**. Make sure the title clearly represents to students what the topic is. (such as: *Question hour week 1*).
- At **Meeting Date** fill in the date of the meeting.
- At **Meeting Time** fill in the time slot of the meeting.
- Click **Now** if you want the meeting to start immediately.
- Indicate at **Max duration** how long the meeting will maximally take place.
- Select **Start record automatically** if you want the recording to start automatically as soon as the meeting commences. Important: If you do not select this option, and you do want the meeting to be recorded, you will have to start the recording manually.

- Select **Automatic link to recording** if you want a link to be generated automatically as soon as the meeting starts.
- Select **Allow external participants** if you want to allow students outside of the course to also have access to the recording.
- Select **Whole class** to add everyone in your course to the meeting.
- If you select this option, you will see the option **Repeat weekly for** appear. Here you can choose to have the meeting be repeated weekly for a set period of time.
- Click **Save** to save the settings for the meeting.

Using **start record automatically** is not recommend! If you handle the recording manually, you can make sure you are ready to start the meeting before you start recording with the record button at the top of the screen.
