

Turn on the URKUND Plagiarism Checker for an assignment

For an assignment to send its submissions to URKUND for processing, you must turn on plagiarism detection. If plagiarism detection is turned on for an assignment after learner submissions have been made, all files will be processed by URKUND. If plagiarism detection is turned off and back on, all unprocessed submissions are sent to URKUND for processing.

1. Within your course, on the teal navbar, click **Assignments**, click **Plagiarism Checker**.

2. On the Assignment Overview page, use the toggles in the **Turn On/Off Plagiarism Detection** column to enable or disable the assignment for plagiarism detection.

Technology Health Concerns	-	-	Aug 7, 2020 12:55 PM	Sep 13, 2020 11:59 PM	-		

Note: If any errors are encountered during processing by URKUND, contact their support team directly. Provide them with the Receiver Account information listed next to the assignment displaying errors on the Plagiarism Detection Overview. This allows URKUND support to identify your account and determine the cause of the error.
