

Zoom Plugin for Microsoft Outlook

The following are directions when using a PC (Windows)

The Zoom Plugin for Outlook installs a button on the Microsoft Outlook tool bar to enable you to start or schedule a meeting with one-click. NOTE: You will need to download Outlook from the office.com website which is free to all YCCC faculty and students.

[Download](#)

The wizard starts. Click Next.

NOTE: You may want to close Outlook if you have it open.

4. Click Next.

It is recommended that you allow Zoom to install in the default location. Simply click **Next**.

5. Click Next to confirm the installation.

You may get a message asking you to confirm that you want to install this on your machine.

6. Click Close.

NOTE: If you did not close Outlook before starting this wizard, you will need to close Outlook and then re-open it for the plug-in to show up.

7. You should now see a Zoom section in Outlook.

You can now schedule a meeting or start an instant meeting directly from Outlook.
